CAREER SUMMARY:

Experienced Software Engineer with strong command of C# and .NET, with a focus on Web APIs. Skilled in developing scalable enterprise-grade software that drives impact. Demonstrates a collaborative approach, with meticulous attention to detail, committed to delivering user-friendly experiences.

WORK EXPERIENCE:

AcrossMart Ltd

Chief Operations Officer | October 2022 - December 2023

- Oversaw end-to-end operations from the company's inception to the Minimum Viable Product (MVP) launch in under 6 months.
- Played a pivotal role in the development of the e-commerce platform by optimising 30+ pages for SEO, decreasing load time by approximately 76%.
- Ensured cross-functional team efficiency and maintained seamless communication among teams throughout the project.
- Optimised 900+ images, resulting in a 435% increase in page speed.

Zenith Computer Institute

Head of Department | March 2022 - October 2022

- Managed the institution, focusing on enhancing the quality of computer education in an underserved region of Northern Nigeria.
- Led efforts to improve the educational experience for 130+ students under my supervision.
- Actively contributed to the institution's software development department, ensuring the high quality and integrity of the company's digital products, reducing 600k in development costs.

Alpha-Med Diagnostics and Clinics

Manager | September 2020 - March 2022

- Ensured the seamless operation of all departments, guaranteeing the smooth delivery of laboratory, clinical, pharmaceutical, and consultation services to clients.
- Successfully expanded Alpha-Med's service offerings to include radiology, which subsequently became the company's primary revenue source and increased revenue generation by almost 400%.

Hygrade Business Ventures

Senior Operator | January 2020 - December 2020

- Spearheaded the integration of departmental activities at Hygrade Business Ventures, streamlining processes to ensure the uninterrupted provision of services to clients which resulted in a 120% increase in customer satisfaction.
- Fostered a seamless operational environment that contributed to the consistent and superior delivery of services.
